

FastTracks are one of the most useful ways of finding jobs on workopolis.com. Getting your jobs in the right FastTrack is easy.

How to Get Your Job Posting into a FastTrack

In order to get your job into a **FastTrack** you need to determine which keywords to use.

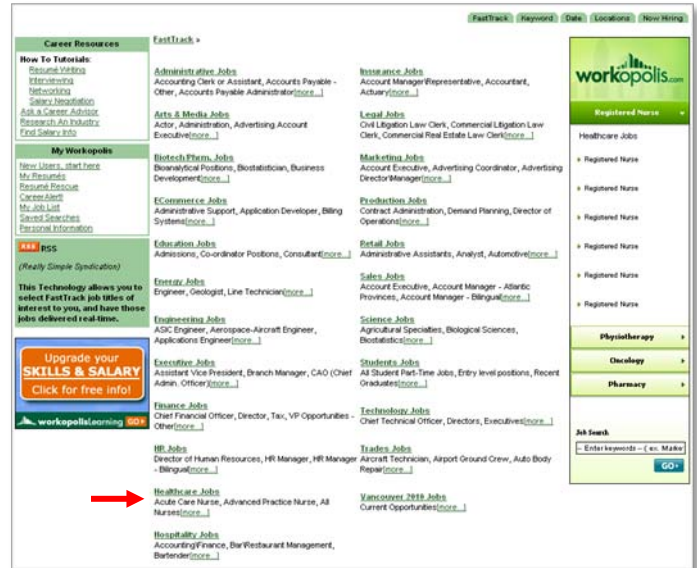

- Click on the **FastTrack** tab.

Selecting Your FastTrack

From the **FastTrack** menu, select where you would like your job to appear.

In this example, we selected **Healthcare Jobs** from the **FastTrack** menu.

Selecting the Job Title

From the category list, select the job title which most accurately represents your job.

In this example we selected **Nurse Educator**.

FastTrack Requisites

View the keywords associated with your selection.

In order to appear in this **FastTrack** section ('Nurse Educator'), your job must contain one of the following combinations of keywords:

nurse and trainer / nurse and educator / nurse and instructor

If the **By Job Title Only** box is selected, you will have to enter the correct combination of keywords in your job title.

****Note:** Some **FastTracks** also require a specific industry, location and/or job category to be selected in your job posting.
